

New Evidence for Pharmacological Treatment in Post-Stroke Recovery

Monday, 18 June 2018, 13:45-14:45

Room: Auditorium VI

Chairman: Andreas Bender, Germany

- **Timing, Training, and Spontaneous Recovery after Stroke: in animals, in humans**
Steven R. Zeiler, USA
- **Anticorrelated processes in neurobiology - possible consequences for neurorehabilitation strategies**
Dafin Muresanu, Romania
- **New evidence from a recent meta-analysis in acute ischemic Stroke**
Natan Bornstein, Israel

Get free Rehabilitation set and Scales booklet!

Exclusively for participants of the symposium.

Visit our EVER Satellite Symposium and you'll receive a DVD and booklet about **Neurorehabilitation after Stroke with essential exercises** supported by Austrian rehabilitation experts and the **Scales booklet** directly after the event (limited – while stock lasts).

SMALL MOMENT. BIG DIFFERENCE.

Last month, Paul was suffering from cognitive and motor impairment.
Today, he's making his next big move.

- Improvement of motor functions
- Regain full independence
- Early recovery after stroke
- Increase quality of life

Muresanu, et al., 2016

ABBREVIATED PRESCRIBING INFORMATION: Name of the medicinal product: Cerebrolysin® - Solution for injection. Qualitative and quantitative composition: One ml contains 215.2 mg of porcine brain-derived peptide preparation (Cerebrolysin® concentrate) in aqueous solution. List of excipients: Sodium hydroxide and water for injection. Therapeutic indications: Organic, metabolic and neurodegenerative disorders of the brain, especially senile dementia of Alzheimer's type - Post-apoplectic complications - Craniocerebral trauma; post-operative trauma, cerebral contusion or concussion. Contraindications: Hypersensitivity to one of the components of the drug, epilepsy, severe renal impairment. Marketing Authorisation Holder: EVER Neuro Pharma GmbH, A-4866 Unterach. Only available on prescription and in pharmacies. More information about pharmaceutical form, posology and method of administration, special warnings and precautions for use, interaction with other medicinal products and other forms of interaction, fertility, pregnancy and lactation, effects on ability to drive and use machines, undesirable effects, overdose, pharmacodynamics properties, pharmacokinetic properties, preclinical safety data, incompatibilities, shelf life, special precautions for storage, nature and contents of the container and special precautions for disposal is available in the summary of product characteristics.
