Cerebroprotective Treatment Strategies in Stroke

Evidence from 3 new studies

Chair: **Andrei Alexandrov (USA)**

Jacek Staszewski (Poland)

Cerebroprotection as an Adjunct to Mechanical Thrombectomy.
WIM Study Results

Michael Brainin (Austria)

Can we identify the optimal patient population that benefits most from cerebroprotective treatment?
Promising results in AIS and rehabilitation studies

"Scales Booklet"

Essential Clinical Rating Scales - From acute Stroke to Neurorehabilitation.

Visit our EVER Satellite Symposium and you will receive a quick guide to important rating scales regarding stroke assessment, stroke treatment and stroke rehabilitation outcome.

SMALL MOMENT. BIG DIFFERENCE.

Last month, Paul was suffering from cognitive and motor impairment. Today, he's making his next big move.

- Improvement of motor functions
- Regain full independence
- Early recovery after stroke
- Increase quality of life

Muresanu, et al., 2016
